PUBLIC HEARING

6:04 P.M. Local Law Introductory "D" of 2009
Fire Prevention

The Town Supervisor opened the Public Hearing at 6:04 P.M. and the Town Clerk had available the Notice of Public Hearing, Affidavit of Posting and Proof of Publication (May 1, 2009 Edition of the Observer Dispatch); the purpose of the Hearing was to offer Town residents an opportunity to speak for or against, or to comment upon, Local Law Introductory "D" of 2009 which, if adopted, would amend the Town Code by repealing the existing Chapter 65 thereof entitled FIRE PREVENTION and replacing it with a new Chapter 65 entitled FIRE PREVENTION. [NOTE: This legislation would repeal Local Law No. Five of 2009 as a result of several omissions in language in Local Law Introductory "I" of 2008, which was introduced at the December 29, 2008 Town Board meeting.]

REGULAR TOWN BOARD MEETING

May 27, 2009

The Supervisor inquired if anyone present wished to speak in the matter. Ralph Humphreys asked if this proposed legislation had anything to do with fees and whether non-profits and churches have to pay the same fee. Codes Enforcement Officer Booth responded that non-profits and churches would pay the same as others. Mr. Humphreys inquired if any consideration had been given during deliberations to a different fee for these particular groups. Codes Enforcement Officer Booth stated that the legislation on the docket tonight does not address fees; that was done at the April 8, 2009 Town Board meeting (Local Law No. Six of 2009).

There being no one further to speak in the matter, the Hearing was closed at 6:07 P.M.

Adoption – Local Law No. Seven of 2009

Councilman Reynolds then moved that Local Law Introductory “D” of 2009 be adopted as Local Law No. Seven of 2009, in the following format; seconded by Councilman Woodland:

**Town of New Hartford, New York

Said architect or engineer shall file reports with the Code Enforcement Officer at regular intervals, indicating the times of such visits, the status of the construction and any defects or discrepancies between the actual construction and the approved plans, drawings and specifications affecting structural, fire, health or life safety which he/she may observe. Said notice shall allow ten (10) days from the date of the notice to cure or otherwise pay the outstanding civil penalty. Any costs incurred by the Town to accomplish the abatement can and shall be filed in proper form in the Office of Oneida County Clerk as a judgment against the owner of the affected property and shall become a lien upon the lot, tract or parcel of land or property where the violation was found to exist.

(e) Injunctive Relief. An action or proceeding may be instituted in the name of this Town, in a court of competent jurisdiction, to prevent, restrain, enjoin, correct, or abate any violation of, or to enforce, any provision of the Uniform Code, the Energy Code, the Code of the Town of New Hartford, including this local law, or any term or condition of any Building and/or Site Grading Permit, Certificate of Occupancy, Certificate of Compliance, Temporary Certificate, Stop Work Order, Operating Permit, Compliance Order, or other notice or order issued by the Code Enforcement Officer pursuant to any provision of this local law. (f) Remedies Not Exclusive. PUBLIC PRESENTATIONS (PUBLIC COMMENTS)

GEIS Report, Stormwater Management, Proposed Codes Changes

Dr. C. P. Rao had read some of the significant parts of the GEIS for the southern part of the Town; his main concern is that, if the Town implements the recommendations made in the GEIS, he and many others who have small tracts of land are going to be affected by the proposed changes. He wrote "...the study is trying to address the effect of potential future development in different parts of the Town on the Storm Water Management, Traffic, and the Infrastructure." He believes the issues of Traffic and Infrastructure are essentially of the same magnitude for all four (4) of the scenarios studied in the GEIS and further believes the most significant factor that is affected by different scenarios is the Storm Water Management. He further wrote "...the Storm Water Analysis in the study is based on the assumption that the current construction practice of clearing the lot of the trees and shrubs, and replacing them with 23 to 30 per cent of impervious surface." He believes this practice of construction is more than likely to be continued unless the Town encourages and provides incentive to construct Green Buildings. Further, he believes that instead of changing the zoning laws, if the Town adopts Green Building Ordinances, and holds the new developers/builders responsible for managing the runoff from their lot in an environmentally friendly manner, the Storm Water problem would be mitigated at the point of origin or source. Dr. Rao believed the Town should be responsible for the runoff from the streets, thereby reducing the amount of runoff to be managed to 30 – 50 percent. This way, the Town would not be curtailing the future development beyond designated boundaries of the study. He said it is easier and economical to incorporate the Low Impact Developments such as Rain Gardens, Pervious Pavements, rotating the downspouts to harvest the rain water, etc. in new construction than to retrofit them.

Dr. Rao believed that the issue of affordable housing should not be limited to area inside the designated developmental boundaries; if a developer would like to build affordable single dwellings outside the designated developmental boundaries, the scenarios of five (5) acre and ten (10) acre lots are not practical. Dr. Rao believed even one (1) acre lots would be cost prohibitive if one takes into account the cost of the land and the present construction costs.

Town Supervisor Reed responded that the Town Planning Board is in the infant stages of the southern GEIS and encouraged Dr. Rao to attend the May 11, 2009 Planning Board meeting. Supervisor Reed believed the Planning Board would well receive his comments and input.

REGULAR TOWN BOARD MEETING

May 27, 2009

Page 28

Upon query of Councilwoman Krupa, Dr. Rao replied that he owns about 230 acres.

Dr. Shaheen owns about 150 acres and is very cognizant of retaining the beauty and watershed in the southeastern part of the Town...he has no intention of selling off his land. With regard to traffic, there is no congestion even near the school on Chapman Road. To put an imposition of a 5-acre lot on future development would be unaffordable. He would like to see 1-acre lots, recalling that when he was on the Planning Board, the Zoning Laws required 100-foot frontage in an R-1 Residential area and 120 feet frontage in an R-1A Residential area. The Town Board also encouraged Dr. Shaheen to attend the May 11, 2009 Town Planning Board meeting.

Zoning – Non-conforming Lot Issues

Beverly Roberts of Roberts Appraisal Service informed the Town Board that effective April 1, 2009 mortgage lender, Fannie Mae, would not purchase any more mortgages for non-conforming lots. She expressed concern that the Town's zoning law states that non-conforming lots can't be rebuilt without a variance. Ms. Roberts stated this is an issue in many other municipalities as well. Codes Enforcement Officer Joseph Booth stated that zoning property is to eliminate non-conforming uses. Ms. Roberts said all she's looking for is to rebuild a single family home in a single family-zoning district.

Annexation Petition – Cherrywood Mobile Home Community

Ralph Humphreys and his attorney, Murray Kirshtein, presented a Petition for the Town of New Hartford to annex a small portion of the Cherrywood Mobile Home Community located in the Town of Kirkland into the Town of New Hartford. Currently, there are seven (7) residents who would be eligible to vote in favor of New Hartford annexing the Kirkland property; five (5) have signed the Petition and two (2) are enroute from Florida, the latter of who are unable to be contacted. The only access into the Cherrywood Mobile Home Community is through the Town of New Hartford, there being no frontage in the Town of Kirkland. Attorney Kirshtein stated that water and sewer service is by agreement between the Towns of Kirkland and New Hartford and has been under control of the Town of New Hartford since about 1990. He has been informed that the Kirkland Town Attorney is in favor of New Hartford's annexation. Attorney Kirshtein stated the annexation would be in the interest of both towns and the residents who would then have one public body governing the homes. He and Mr. Humphreys will be meeting with Kirkland Town Officials on May 11, 2009. Attorney Kirshtein requested the submissions to the Oneida County Planning Department (GML-239 review) be done as rapidly as possible. That Department has reported in the past either no objection or no comment on rezoning and/or subdivision going back to 1990. He stated that the Oneida County Health Department and New York State Department of Environmental Conservation have also given their approval. The Town Board directed that Councilman Woodland and Attorney Gerald Green also attend the May 11, 2009 meeting with Kirkland Town Officials and then report to the Town Board at the next meeting.

Steering Committee – Sanitary Sewer Overflows (SSOs)

Councilwoman Krupa reported that the Steering Committee would like each town, village and city to adopt a Resolution of support, going outside our municipality for funding; state and federal monies are needed. For the fifteen (15) municipalities outside the City of Utica, it's millions of dollars in abatement projects and cost prohibitive for municipalities. The final draft was received today and referred to the Town Attorney who has not reviewed the Resolution yet; Councilwoman Krupa recommended adopting the Resolution contingent upon the Town Attorney's approval. Thereafter, Councilman Reynolds moved the adoption of the following Resolution; seconded by Councilman Woodland:

(RESOLUTION NO. 97 OF 2009)
